# Report of the Superintendent of Schools

---

To the Superintending School Committee and the Citizens of Ashland:

I submit herewith the annual report of the Ashland School Department.

## HIGH SCHOOL

The new teachers at the high school are Principal Clarence P. Danforth, Submaster Harold T. Payson. The work in the high school is being very well done. We have twelve tuition pupils. Sixteen pupils were graduated last June. One of these is teaching, one working at the rectory at Sheridan, three are training in Massachusetts hospitals, one is attending Bliss Electrical school, two have entered college, one is doing post graduate work this year, two are employed away from home and five are working at home.

A survey of the class of 1929 indicates that many of our young people are finding an opportunity to use their high school training to further themselves in their chosen field of activity. I feel that although our high school stands high among the schools of the State, it ought to offer something in the way of special training for those who seek a livelihood at home. I have no definite recommendations just at this time. Our financial burdens are now so heavy that I dare not suggest action that would entail the expenditure of a considerable sum of money. It may be possible as time goes on to make some adjustment in this direction without adding to the cost of the school.

## COMMON SCHOOLS

New teachers in the common schools this year are as follows: Central Building: Miss Ruby Garrison, Seventh and Eighth Grades; Miss Hope Whitney, First Grade; Sheridan, Miss Helen Robinson, Second Grade; Miss Laura Furtado, First Grade; Mr. Raymond Amnott, Hill Grammar; Miss Mary Leach, Horsebrook, and Miss Margaret Wayfield, Belleville.

Transfers include Miss Beatrice Rafford, Horsebrook to Sheridan Intermediate, and Miss Evelyn Shepard, Sheridan Intermediate to the Second Grade room at the Central School.

The work in our schools is progressing well. The teachers are making a serious study of their work. We have lost a minimum of time on account of storms and bad roads. In almost every case the teachers

have been on the job ready to teach, regardless of weather conditions. In many instances this has entailed the sacrifice of a week end or a Sunday at home. I appreciate this spirit.

### SCHOOL BUILDINGS

Our buildings, with few exception, are in good condition. Storm windows at the Hill School have made that building comfortable this winter. The chimney at Horsebrook was rebuilt, and the building cleaned and painted inside and outside.

In April of last year we began to have trouble with the cesspool. The sewer became broken, due to the settling of the cesspool wall. This caused the pipe to plug at that end. Temporary repairs sufficed to keep it working until school closed. During the summer, the pool was cleaned, and a second pool was dug to serve as an overflow for the main pool.

The South School is in poor condition, and must be repaired soon. A new door is needed at the south entrance at the Central building.

### SCHOOL CALENDER

Many of our pupils find it necessary to be absent from school during the first month to work in the potato harvest. Many others would welcome an opportunity to work. With this consideration in mind, I recommend the following school calender for next year: Fall term, Oct. 6 to Dec 19; Winter term, Dec. 19 to Mch. 27; Spring term, April 6 to June 26.

### FINANCES

Our financial situation is somewhat better than it was last year. The common school account, the repair account, and the textbook and supply account are overdrawn. The budget as recommended a year ago did not allow for several emergencies which came up during the year. The budget as recommended for the coming year is a close estimate based on needs for thirty-four weeks of school which we expect to keep between March 1, 1930 and March 1, 1931.

# Report of Principal of the High School

---

Ashland High School opened September 13 with an enrollment of ninety-seven students; forty-one boys and fifty-six girls. At present our enrollment is as follows:

	Girls	Boys	Total
Seniors .....	11	7	18
Juniors .....	16	10	26
Sophomores .....	12	13	25
Freshmen .....	13	14	27
	—	—	—
	52	44	96

Our attendance has been very good for the most part and tardiness is much better than the last term. We wish that parents would realize the importance of regular attendance at school. Every day missed is a loss to both student and teachers.

We must not forget that scholarship is our real aim in school. Parents can help teachers much by seeing that pupils do some home work each night. We have an Honor Roll this year. To be on this a student must have all A's and B's. The list for the last period follows:

	A's	B's
McGowan, Marjorie.....	4	
McCormack, Maxine.....	4	
Winslow, Grace.....	5	
Merritt Lula.....	5	
Tilley, Roger.....	5	
Tilley, Jean.....	5	
Coffin, Frances.....	5	
Coffin, Rodney.....	1	3
Hilson, Eleanor.....	2	1
McNally, Dana.....	2	3
Sylvester, Helen.....	1	3

---

Snowman, Fern.....	2	2
Duffy, Eva.....	3	2
Amnott, Marjorie.....	3	2
Tibbetts, Eva.....	2	2
Hillson, Alice.....	2	3
William, Arnold.....	5	1
Sloat, Kenneth.....	3	2
Rafford, Dwight.....	3	1
Anderson, Maurice.....	2	2

In December we published one edition of our school paper, "The Broadcaster". We expect to get out another very soon.

The noon lunch has been a real success this year. Many have taken advantage of these warm lunches. I wish to thank all who have helped make these so successful.

Much credit is due to Mr. Payson for his hard work with the basket ball team. Our team has won the championship of the Aroostook Central League. The spirit of the team has been of the best at all times. I wish to thank the Northern Aroostook Carnival for making it possible for our girls to go to the Fort Kent Carnival.

In conclusion, I wish to thank Supt. Harriman and the teachers of the Central Building for their splendid spirit of co-operation and helpfulness shown at all times.

Respectfully submitted,

C. P. DANFORTH.

# The Department of Home Economics

---

The importance of Home Economics as a part of our public school education is becoming evident. Statistics compiled by the Federal Government showed that about 45 per cent of the girls in high school are given Home Economics training.

Just what is Home Economics education? So many of us are apt to think of it as merely cooking and sewing or sewing and cooking. But this is no longer true; Home Economics includes a much broader field. Home Economics deals with the activities that are centered around the home life of the girl. Home Economics might well be applied to such studies as are of practical value to the student to help her later on in life to cope efficiently with the problems of the home.

Therefore she is given such subjects as Child Care, Home Care and Selection, Foods, Nutrition, Home Management, Home Nursing, which are self-explanatory.

Some one might easily say that a girl choosing a business life might not need all this information about the home. But on the contrary, Home Economics has much in store for her. Does she not need health training? Isn't it important for her own health that she know the right selection of food? Doesn't she need to know enough of clothing and textiles to buy her clothing wisely and to choose proper colors?

What are some of the things that our girls learn in their Home Economics Course? They include many of the following: helping to prepare meals, caring for her own room, going to the store and buying wisely, selecting her clothes, caring for mother when ill, preparing a tray for an invalid in the family, preparing and packing her own lunch, dressing baby sister, selecting proper food in a restaurant, meeting emergencies, cleaning silver, cleaning the bathroom, making beds, etc.

Home Economics training helps girls create a more abundant life in their individual home, giving the girls a sense of their responsibility in home and community life; leads them to practice more healthful habits of living.

This year we have enrolled in Home Economics classes 35 pupils in the grades and 24 in the high school.

Registration by classes is as follows:

Grade Six .....	13
Grade Seven .....	11
Grade Eight .....	11
Freshmen .....	12
Sophomores .....	5
Juniors .....	4
Seniors .....	3

Subjects offered are as follows:

Grade Six .....	Clothing and Textiles
Grade Seven .....	Clothing and Foods
Grade Eight .....	Food, Clothing and Textiles, Hygiene
Freshmen, Home Care and Selection, Clothing and Textiles, Handicraft	
Sophomores .....	Foods and Nutrition, Clothing and Textiles
Juniors .....	Child Care, Home Management, Clothing and Design
Seniors .....	Child Care, Dietetics, Clothing

Hot lunches have been served by our department each day for the students who remain in the building each noon. About forty are being served each day. I feel safe in saying that the lunches have been a success this year. The girls have been very willing to cooperate with me to make them so. I regret though that it is customary for the boys not to patronize the lunches. Isn't there some way that we can show them that one hot dish would make their luncheon more appetizing and beneficial?

I wish to thank the parents, who have given us their generous support by way of staple supplies, and by their interest shown in the letters which I have received.

This year for the first time, the Freshmen boys have taken a course in handcraft, which apparently they are very much interested in. We have the class the last two periods every Friday afternoon and would welcome visitors at that time. They have made several interesting projects with the coping saw, and expect soon to start on basketry.

We are planning an exhibit of all our work done in class, this June. I would very much appreciate a visit from all the parents and townspeople at this time, but better still, now—to our classes.

I wish to thank all the teachers in the central building for their kind and helpful cooperation to our course.

Respectfully submitted,

MARY E. CAMBELL.
